1. Connect to the Internet.
2. Right-click on the eTrust EZ Antivirus Icon in the System Tray and select AutoDownload.

3. eTrust EZ Antivirus will connect to the download site and download any applicable updates.

4. When the download is completed an AutoDownload prompt will ask if you want to install the update files. Select Yes.

5. After the update has completed right-click on the eTrust EZ Antivirus icon in the system tray and select version. Verify that the Macro Data File is within 7 days of the current date.
